DETAILED ACTION

Allowable Subject Matter

The indicated allowability of claims 3-8 is withdrawn in view of the newly discovered reference(s) to U.S. Patent no. 4,613,273 to Wagner. Rejections based on the newly cited reference(s) follow.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claim 3, line 4, the recitation of a “standard winch” is indefinite. What constitutes a “standard” winch? On line 5, the recitation “the flange” lacks positive antecedent basis in the claim. Regarding lines 5-6, does the “J” lock engage all of the elements listed (the flange, a worm drive, a worm gear and a bolt)?

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3654

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3-8 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent no. 4,613,273 to Wagner.

Wagner, in Figure 4, discloses the elements of the claims as shown below.

Allowable Subject Matter

Claim 1 is allowed over the prior art of record.

Art Unit: 3654
